Vortice Lava Mosaic

Vortice Lava

VORTICE

Vortice Lava

Vortice offers a blend of aggregate looks found mainly in sedimentary stones and cements with the swirling type veining more common to volcanic stone to create an appearance with a fine balance of interest without dominating a décor.

FLOOR & WALL // Vortice Snow

VORTICE MICROGRIP®

SLIP RESISTANCE // HIGH / R12 / P5 / C

600 x 600 R

LAVA, ROCK

Vortice MicroGRIP® provides high slip resistant performance for demanding commercial traffic areas, external paths and ramps. The flat mild textured surface of the MicroGRIP® finish provides the ideal balance between long term sustainable slip resistance and ease of cleaning. All colours and formats in Metz Element can be produced in the MicroGRIP® surface, however minimum quantities may apply for other than the items shown.

Finish Type	Oil ramp	Barefoot Ramp	Pendulum	AWT (500 cycles) Typical
Natural	R10	-	P3	Not Tested
MicroGRIP®	R12	C	P5	40-45+ (excellent)

Note: Items with a "-" are not expected to achieve any substantial level of slip resistance under that test method. Items marked as "Not Tested" have not been measured by that particular test method.

FORTEZZA

Fortezza Island Grey
26 Wharf St. Brisbane, QLD

Fortezza Island Grey
100 Creek St, Brisbane, QLD

Metz Fortezza series is inspired by some of the most distinctive granites from around the world. Warm almond and ivory tones from South America, strong island grey from Pacific Canada and ash from the French Haute-Savoie region.

Fortezza Ash Granite
Merino Collection, T1 Sydney Airport, NSW

FORTEZZA MICROGRIP®

QUARTZITE

Quartzite Ghiaccio

Quartzite Ematite

Quartzite Sasso

Quartzite Ematite

Quartzite Cenere

Metz Quartzite is achieved by careful selection of stunning quarzitic stones to create a series inspired by the best. The occasional presence of a contrasting white inclusion vein adds another layer of depth and character to this series.

JENOLAN

Jenolan Terra

Jenolan Diamond

Jenolan Diamond

Metz Jenolan series reflects the natural hues of limestone and sandstone. Irregular dots and veins evoke thoughts of shells, coral fossils and mineral deposits.

JENOLAN NANOGRIP®

SLIP RESISTANCE // MEDIUM / R10 / P4 / B

600 x 600

Diamond

Jenolan NanoGRIP® provides a P4 slip resistant surface with sound wear characteristics, suitable for all but the heaviest commercial traffic. All colours and formats in Metz Jenolan can be produced in the NanoGRIP® surface, however minimum quantities may apply for other than the items shown.

JENOLAN MICROGRIP®

SLIP RESISTANCE // HIGH / R12 / P5 / C

600 x 300

Diamond, Sand, Terra

Jenolan MicroGRIP® provides high slip resistant performance for demanding commercial traffic areas, external paths and ramps. The flat mild textured surface of the MicroGRIP® finish provides the ideal balance between long term sustainable slip resistance and ease of cleaning. All colours and formats in Metz Jenolan can be produced in the MicroGRIP® surface, however minimum quantities may apply for other than the items shown.

Note: Items with a "-" are not expected to achieve any substantial level of slip resistance under that test method. Items marked as "Not Tested" have not been measured by that particular test method.

Montagna Scie Dark

MONTAGNA

Montagna Scie Grey

Montagna Scie Dark

Montagna Flamme Grey

Montagna Scie Light

Metz Montagna is inspired by the strongest character pieces of the classic Belgian Bluestones, creating a stunning version of a classic from the intrinsic details used. Recreations of blade marks and layered sections with a range of different tones are evident.
